Who Are We?

BACKGROUND INFO

Owala is a Singapore based drinkware launched in 2022. It is best known for its innovative reusable water bottles. The company focuses on making hydration fun and convenient while promoting sustainability by reducing the needs for single used plastic water bottles.

OWALA'S MISSION

- Reduce the use of plastic bottles through games and quizzes that helps educate users on the importance of sustainability hydration habits.
- Encourage people to buy Owala after deeper understanding of our brand

Homepage

By : Bong Shi Xuan 251463E

→ HOMEPAGE PURPOSE

The homepage acts as the main navigation hub of our Scratch application. It introduces users to Owala's sustainability theme and provides a clear starting point for accessing the games and quiz.

→ NAVIGATION & INTERACTIVITY

Interactive buttons and icons allow users to easily select different games or the sustainability quiz. This ensures smooth navigation and an intuitive user experience suitable for all age groups.

→ DESIGN RATIONALE

The homepage uses green tones, nature elements, and eco-friendly visuals to reflect environmental sustainability and align with Owala's brand identity. This design reinforces the message of reducing plastic waste through engaging gameplay.

The Eco Path

By: Teng Bryan 251079Z **Game 1**

→ HOW THE GAME WORKS

This story game is a day in the life of a character. Players are to control the character and make decisions on what the character should do throughout the day.

→ WIN/LOSE

Players must choose the right decisions to gain sustainability points. Hitting 50 or more points is considered a win, while hitting less than 50 points is considered a lost.

→ AIM OF THE GAME

To teach players how to be sustainable by providing questions, which are scenarios, of what people experience daily, and letting players know about the Owala brand and how nice, useful and sustainable it is.

The Eco Path

AIM OF THE GAME

- Player must catch the Owala bottles into the bin and avoid the plastic bottles
- players identify which ones is a sustainable product

Think Green with Owala

By Evans

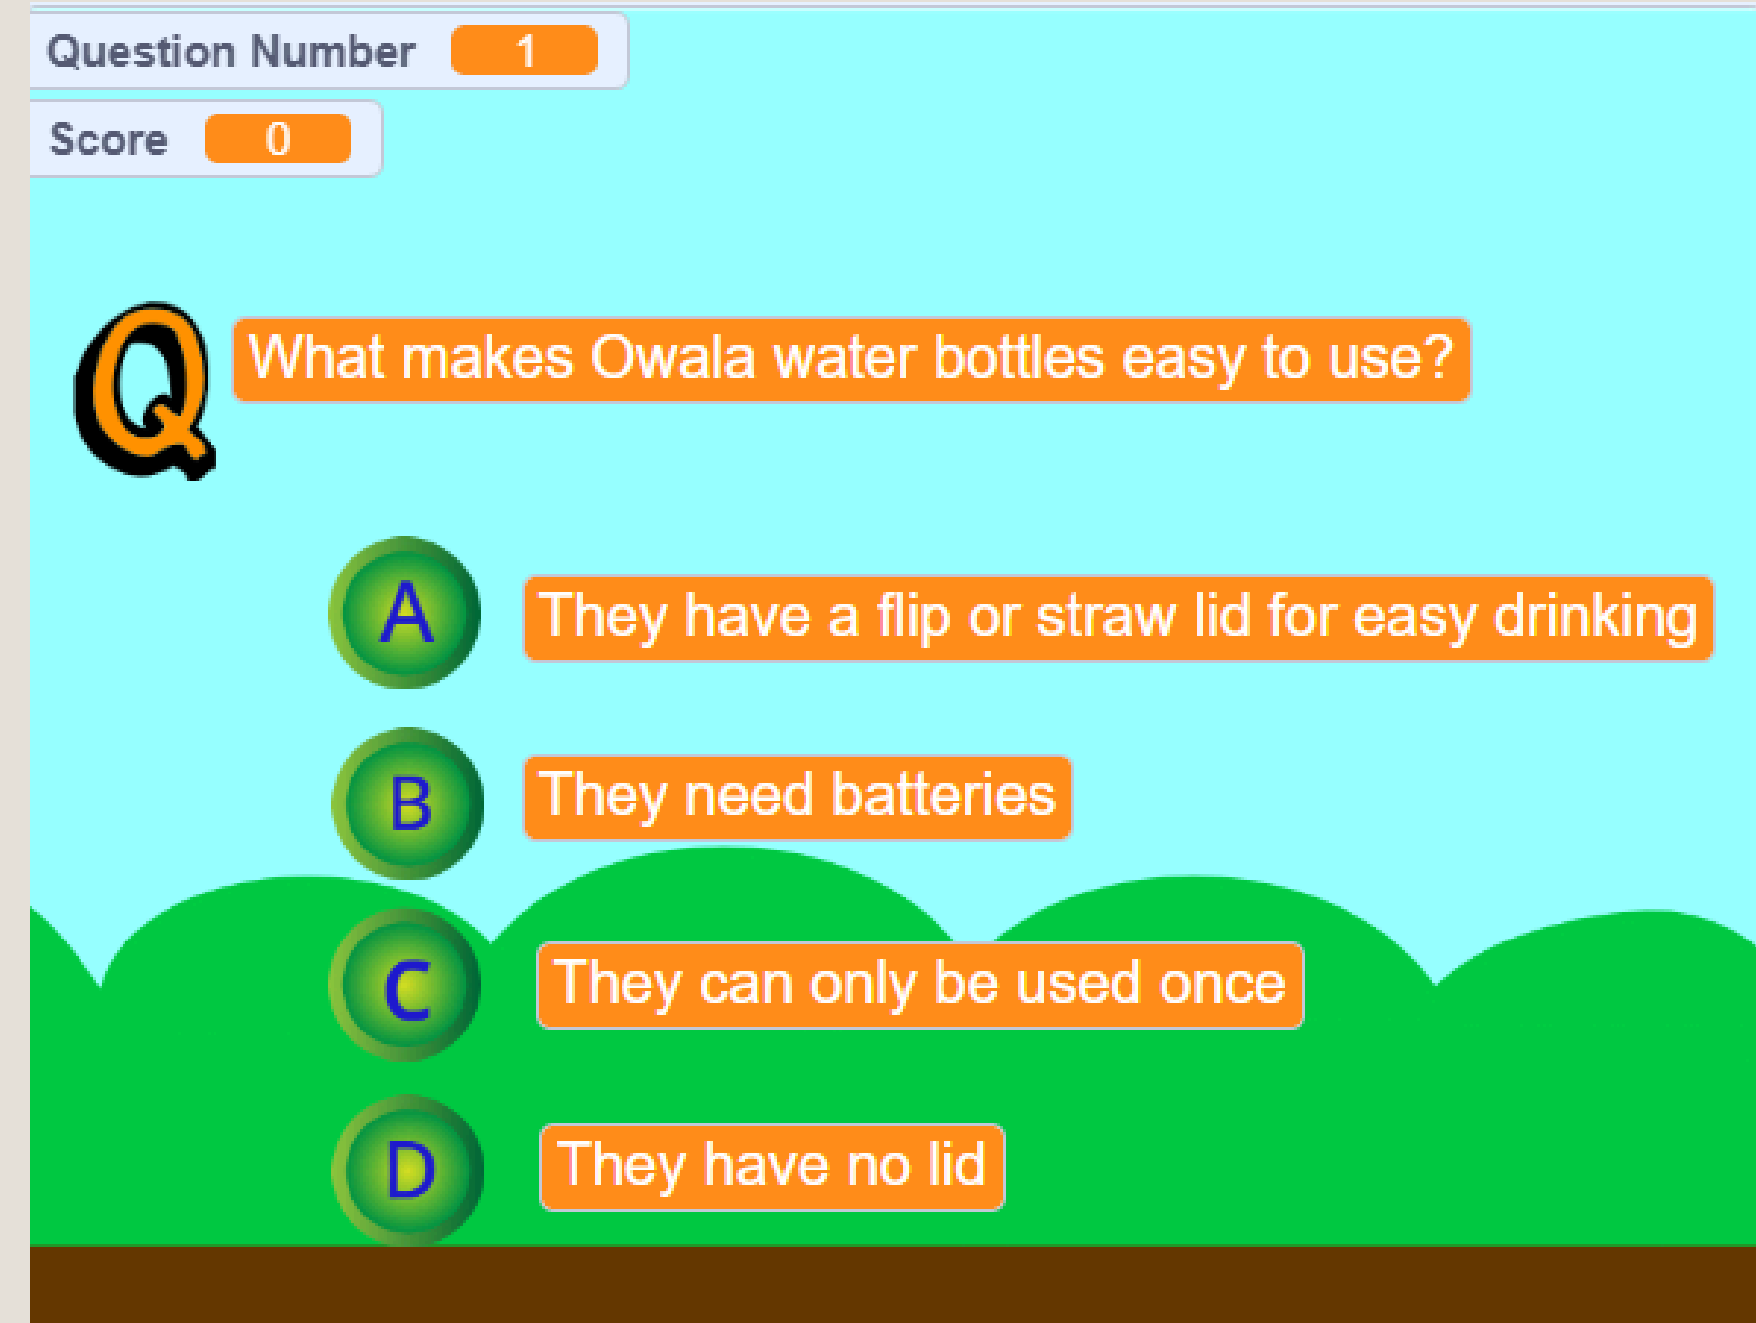

Quiz

OVERVIEW

- ➔ **Players will be answering 10 questions about our Owala water bottles, sustainability and eco-friendly habits.**

PURPOSE OF QUIZ

- ➔ **The purpose of the quiz is to educate people about sustainability and Owala's mission to keep the world green. This quiz also help encourage people to make eco-friendly choices, reduce plastic waste, and understand how important their small daily habits are such as using a reusable bottle.**

Conclusion

Our team developed an integrated Scratch application that combines games, a quiz, and a central homepage to promote environmental sustainability. Through interactive gameplay, users are encouraged to make eco-friendly choices aligned with Owala's mission. This project demonstrates how digital applications can effectively support sustainability education.

THANK
YOU :)
