

# Owala

By Ophelia, Bryan, Evans and Shi Xuan

# Background

# owala™

Owala is a Singapore based drinkware launched in 2022. It is best known for its innovative reusable water bottles. The company focuses on making hydration fun and convenient while promoting sustainability by reducing the needs for single used plastic water bottles.

Our company has come up with games and quizzes to help educate the users on the importance of sustainability hydration habits.

- Reduce the use of plastic bottles
- Encourage people to buy Owala

# Company

## Owala

- Known for creating durable, stylish and convenient water bottles

**REFILL. REUSE. REFRESH**

### Owala's mission

Promote eco-friendly habits and reduce the need for single-use plastic bottles.

Reason: Many people of all ages still use disposable bottles, which contributes to unnecessary amount of plastic wastage.

### Challenges

Many consumers are still unaware of the fact that there are a lot of plastic waste being generated yearly. (400 million tonnes).

Consumers also have difficulty remembering to bring their reusable bottles daily because of the inconvenience and unseriousness.

### Solution

We're creating applications on scratch such as games and quizzes to educate and encourage users about plastic waste and how carrying reusable bottles makes a big difference in our environment.

# GAME 1: The Eco Path

- Players go through decision making in their daily life
- players have to choose the correct decision to be sustainable and save the environment.

Wrong Answer

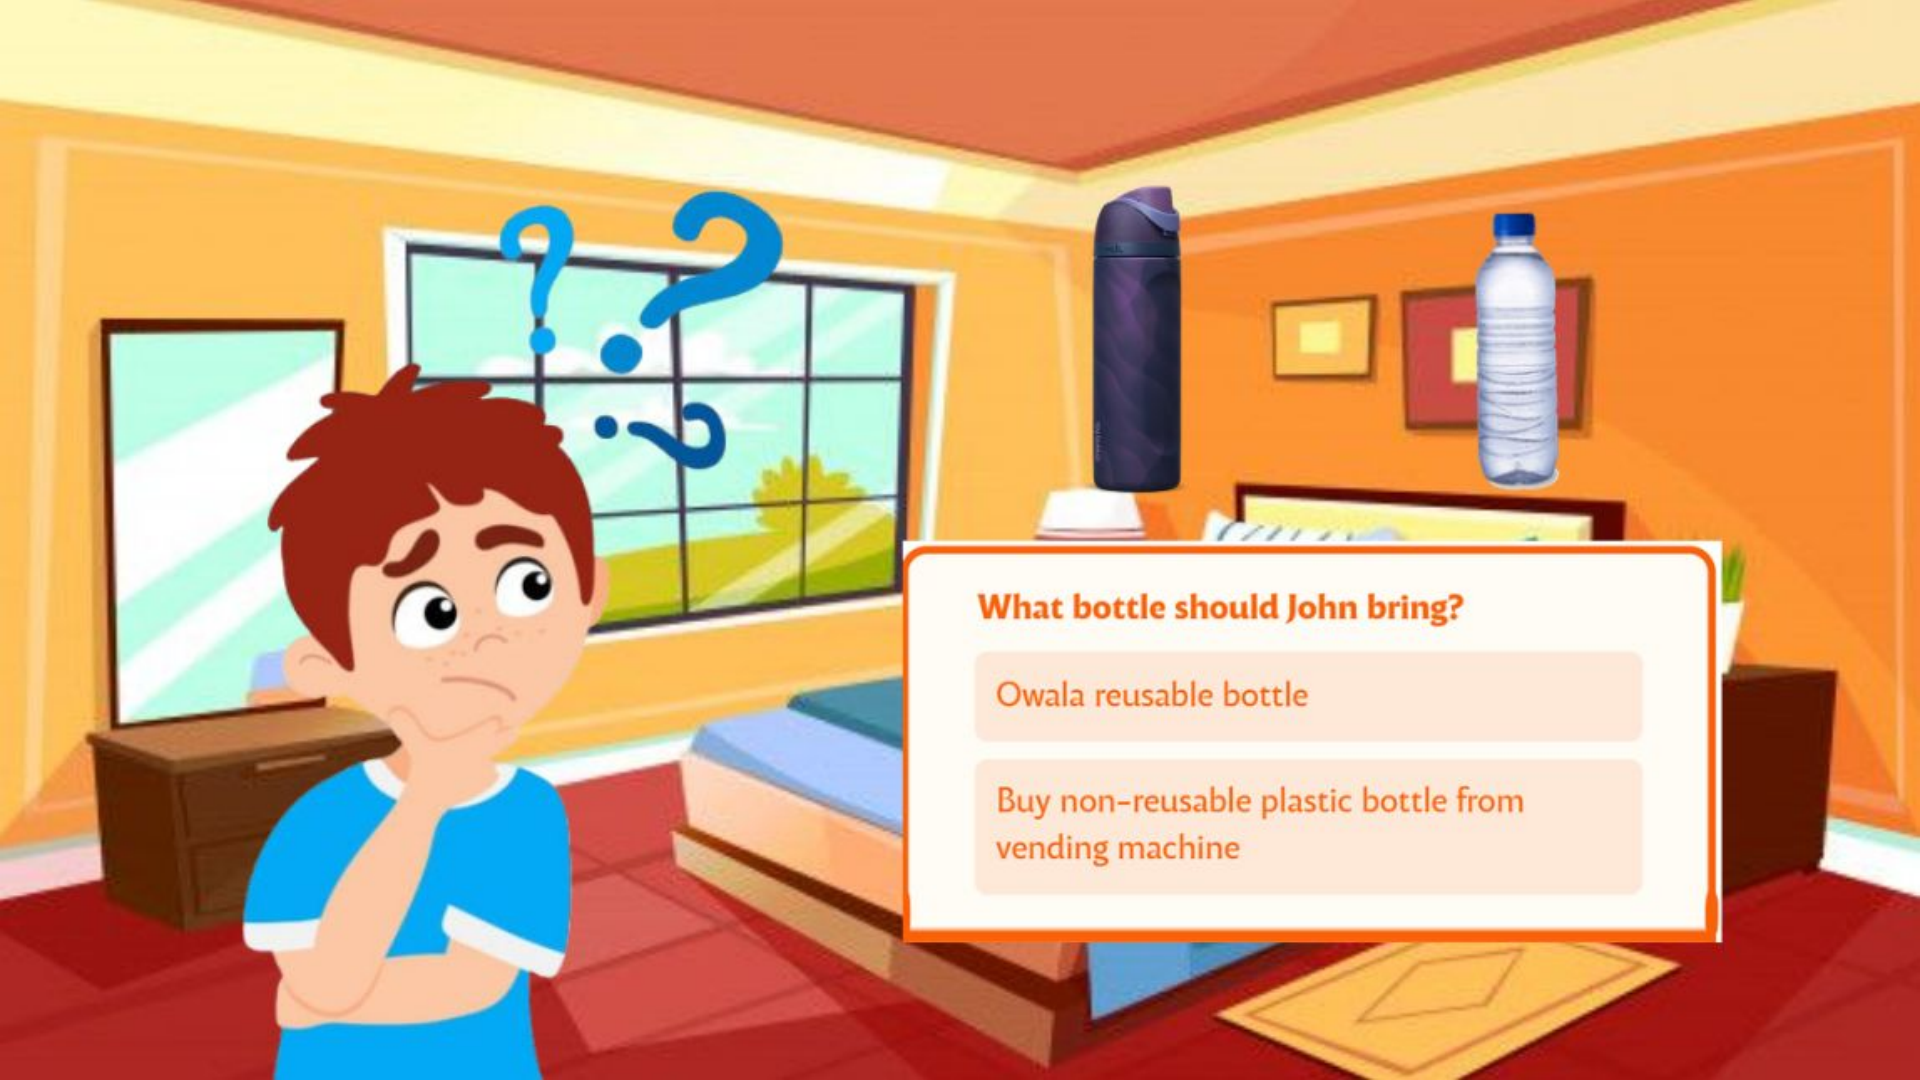

Sky turns darker per wrong answer chosen

Correct Answer

Gain sustainability scores

How to win?

Reach til the end of the day with a sustainability score greater than or equal to 70%

**What bottle should John bring?**

Owala reusable bottle

Buy non-reusable plastic bottle from  
vending machine

# GAME 2: Catch The Owala

- Player must catch the Owala bottles into the bin and avoid the plastic bottles
- players identify which ones is a sustainable product

## Level 1

Catch all 5 owalas and no more than 5 plastic bottles at, speed 1x

## Level 2

Catch all 10 owalas and no more than 3 plastic bottles at, speed 1.5x

## Level 3

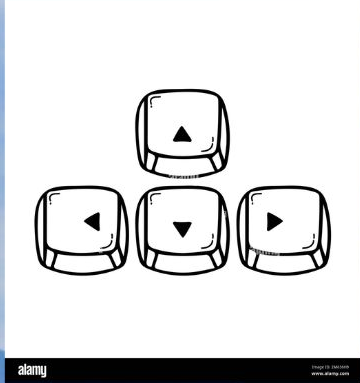

Catch all 15 owalas and no more than 2 plastic bottles at, speed 2x

# HOW THE CHARACTER MOVES

left ← (by using left arrow key)

right → (by using right arrow key)

← Bucket

← Character

# Non-Functional Requirements

## REQUIREMENT

### Ease of Use

The app should have a simple and intuitive interface so users of any age can navigate the game without confusion.

### Visual Consistency

The design should match Owala brand colours and style, using bright, clean visuals to make the app more engaging and recognisable.

### Accessibility

Text, icons, and buttons should be large and readable, ensuring players can clearly understand instructions and interact with the app.

# User Requirements

## Educates Users on Sustainability

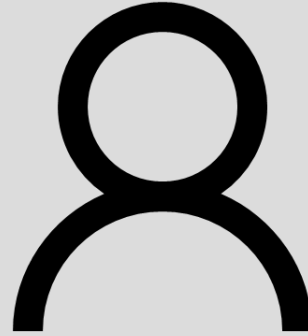

The app should help users understand the environmental impact of plastic waste and reusable bottles through games and quizzes.

## Encourages Reusable Habits

By rewarding good decisions and showing consequences for bad ones, the app motivates users to adopt environmentally friendly habits in real life.

## Supports Owala's Mission

The app must align with Owala's goal of reducing single-use plastic waste by promoting awareness of reusable drinkware and sustainability choices.

# Tools & Technologies

## Scratch (**Main**)

provides a visual, block-based programming environment suitable for creating interactive applications with animations

## Owala Website

Where we get our inspiration and ideas

## Chat GPT

used as a support tool to generate ideas, refine project concepts, debug logic, improve written content
